Title: Language and Communication in the Constitution of the Dialogical Self
Year: 2010
Journal: Scientific Journal of Humanistic Studies
Volume: 2
Issue: 3
Pages: 34-38
Keywords: Dialogical Self
Abstract: This paper is not an attempt to map the reaffirmation of the Cartesian Cogito, who's rejection forms the pact of all the struggling parties in postmodern intellectual circles. Our interest is oriented towards the theoretical perspectives rooted in pragmatism that conceive identities as socio-culturally constructed and mediated by discourse.
