**Type:** Article in Journal

**Author:** Bellucci, Francesco

**Title:** COMMENT

**Year:** 2015

**Journal:** Sign Systems Studies

**Volume:** 43

**Issue:** 4

**Pages:** 433-437

**Abstract:** The author discusses the paper featured by Helmut Pape concerning the dynamic object of a sign designed by philosopher Charles S. Peirce. Topics discussed include the transitive relation which governs the identity determination of a sign's dynamic object, the quantification of Peirce's distinction between immediate and dynamic object, and the teridentity conception.
