Title: Peirce's Pragmatism, Scientific Realism, and the Problem of Underdetermination
Year: 1999
Journal: Transactions of the Charles S. Peirce Society
Volume: 35
Issue: 2
Pages: 374-397
Keywords: Pragmatism, Realism, Underdetermination, Abduction
Abstract: Discusses the views of philosopher Charles Peirce on pragmatism, scientific realism and the problem of underdetermination. Details on Peirce's notion of abduction and its relation to scientific realism; Defense presented by Peirce regarding the theory of scientific realism; Information on the underdetermination of theory by data as the main threat to realism.
