**Type:** Article in Journal

**Author:** Dilworth, David A.

**Title:** Peirce's Schelling-fashioned critique of Hegel

**Year:** 2015

**Journal:** Cognition

**Volume:** 16

**Issue:** 1

**Pages:** 57-86

**Keywords:** Hegel, Anancasm, Schelling

**Abstract:** Peirce's transformation of Kant's faculty psychology and the heuristic power of the reflective judgment, set within his declared Schelling-fashioned objective idealism, informed his career-long exposé of Hegel's a priori method of fixing belief as a paradigm of internal logical anancasm. Peirce's critique of Hegel remains as illuminative and relevant in the contemporary marketplace of ideas.

**Language:** English
