Title: Álgebras booleanas libres en álgebra, topología y lógica
Year: 2016
Journal: Boletín de Matemáticas
Volume: 23
Issue: 2
Pages: 143-163
Keywords: Alpha Graph, Existential Graph, Boolean Algebra
Abstract: In this paper we review the appearance of free Boolean algebras in various contexts of Mathematics. Next we build a representation of finite free Boolean algebras by means of Peirce's Alpha graphs.
