**Title:** Christine Ladd-Franklin's and Victoria Welby's correspondence with Charles Peirce  
**Year:** 2013  
**Journal:** Semiotica  
**Volume:** 2013  
**Issue:** 196  
**Pages:** 139-161  
**Keywords:** Christine Ladd-Franklin, Victoria Lady Welby, Semeiotic, Logic  
**Abstract:** The Peirce-Welby correspondence has been an invaluable source for the historians of logic and semiotics mapping the development of Peirce's thought and of the signification movement. The unpublished Peirce-Ladd-Franklin correspondence provides equally important insights into the development of theories of logic and meaning, science and reasoning, and language and intelligence. Taking Ladd-Franklin's contributions into account puts the received historiography on modern logic, semiotics, pragmatism, and linguistic philosophy in a new light. She was also a pioneer in women's rights in higher education and scientific research.
