Year:	1890 [c.]
Abstract /	Robin Catalogue:
Description:	A. MS., n.p., [1890?], pp. 1-4.
	The proposition to be proved: " that the order of sequence in which the things of any collection are counted makes no difference is [in] the result, provided there can be any order of counting in which the count can be completed. "
Keywords:	Finite Collection
