Type: Manuscript

**Author:** Peirce, Charles Sanders

Title: Minute Logic: Of the Classification of the Sciences. Second Paper. Of the

**Practical Sciences** 

Manuscript MS [R] 1343

ld:

**Year:** 1902

**Abstract** / **From the Robin Catalogue:** 

**Description:** A. MS., G-c.1902-5, pp. 1-103, unfinished; plus 90 pp. of other drafts.

Published, in part, in the following order: 7.53-57, 7.381n19, and 7.58 (pages 4-10, 21, 23, 75-76). Omitted: a discussion of different systems of classifying the sciences. Every natural classification is based on the purpose or quasi-purpose of the objects classified. Purpose has its root in desire. And every desire is a phase of instinct. A good classification of the instincts affords a key to purposes in general and to scientific purposes in particular. Elaborate classification

of instincts.
