'Thought' (pub. 20.10.15-17:49). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from http://www.commens.org/dictionary/entry/quote-algebra-logic-2.

Term: Quote:	Thought A cerebral habit of the highest kind, which will determine what we do in fancy as well as what we do in action, is called a <i>belief</i> . The representation to ourselves that we have a specified habit of this kind is called a <i>judgment</i> . A belief-habit in its development begins by being vague, special, and meagre; it becomes more precise, general, and full, without limit. The process of this development, so far as it takes place in the imagination, is called <i>thought</i> .
