'Relation' (pub. 11.09.14-12:59). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from

http://www.commens.org/dictionary/entry/quote-critic-arguments-ii-reader-introduced-relatives-3.

Term: Relation

Quote: A *relation* is a fact about a number of things. Thus the fact that a locomotive

blows off steam constitutes a relation, or more accurately a relationship (the *Century Dictionary*, under *relation*, 3, gives the terminology. See also *relativity*, etc.) between the locomotive and the steam. In reality, every fact is a relation. Thus, that an object is blue consists of the peculiar regular action of that object on human eyes. This is what should be understood by the "relativity

of knowledge."
