Term: Abduction

Quote: Inference is any act of deliberate assent, in any degree, however slight, which a

man accords to a proposition because he thinks that assent warranted by his already accorded assent to another proposition or propositions, called the premises. It is one act of inference to adopt a hypothesis on probation. Such an act may be called an *abduction*. It is an act of the same kind, when a hypothesis is merely suggested as possible worth consideration. For even then

some degree of favor is extended to it.
