'Sign' (pub. 26.10.15-11:13). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from http://www.commens.org/dictionary/entry/quote-letters-lady-welby-47.

Term: Quote:	Sign A sign mediates between the <i>interpretant</i> sign and its object. Taking sign in its broadest sense, its interpretant is not necessarily a sign. [—] A sign […] is an object which is in relation to its object on the one hand and to an interpretant on the other in such a way as to bring the interpretant into a relation to the object corresponding to its own relation to the object. I might say 'similar to its own' for a correspondence consists in a similarity; but perhaps correspondence is narrower.
