**Term:** Sign

**Quote:** A sign in general is 1<sup>st</sup> something Real, that is 2<sup>nd</sup> applicable to an object different from itself and already known to the person to whom it is a sign, and 3<sup>rd</sup> is capable of interpretation in the mind of that person, so that it will (or would if accepted as veracious sign) have some effect upon him of a kind it was calculated or fit to have.

**References:** ILS 284

**Date of Quote:** 1910 [c.]
