Logical Analysis

[Lady Welby] reaches the conclusion that there are three senses in which words may be interpreted. She calls them Sense, Meaning, and Significance. [—] *Sense* seems to be the logical analysis or definition, for which I should prefer to stick to the old term *Acception* or *Acceptation*. [—] In the Second Part of my Essay on Pragmatism, in the *Popular Science* of November 1877 and January 1878, I made three grades of Clearness of Interpretation. The first was such Familiarity as gave a person familiarity with a sign and readiness in using it or interpreting it. In his consciousness he seemed to himself to be quite at *home* with the sign. In short, it is Interpretation in *Feeling*. The second was Logical Analysis = Lady Welby’s *Sense*. The third was Pragmaticistic Analysis [and] would seem to be a Dynamical Analysis, but [is] identified with the Final Interpretant.
