Symbol

...the mode of representation may be by likeness or analogy, in which case, the sign may be called an *Icon*; or it may be by a real connexion, as a certain kind of rapid pulse is symptom of a fever, in which case the sign may be called an indication or *Index*; or finally the only connexion may lie in the fact that the Sign (a word, for example) is sure to be interpreted as standing for the Object, in which case the Sign may be called a *Symbol*...
