'Induction' (pub. 09.03.18-12:05). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from http://www.commens.org/dictionary/entry/quote-minute-logic-chapter-i-intended-characters-treatise-37.

Term: Quote:	Induction Arguments are of three kinds, <i>Deduction</i> , <i>Induction</i> , and what I call <i>Abduction</i> [—] If the conclusion is accepted because, having been hypothetically propounded as a hypothesis, it predicted that experiments would yield results which they have thereupon been found to yield, the argument is Inductive.
