'Proposition' (pub. 14.06.14-16:46). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from http://www.commens.org/dictionary/entry/quote-new-elements-kaina-stoiceia-10.

**Term:** Proposition

Quote: It is remarkable that while neither a pure icon nor a pure index can assert

anything, an index which forces something to be an *icon*, as a weathercock does, or which forces us to regard it as an *icon*, as the legend under a portrait does, does make an assertion, and forms a *proposition*. This suggests the true definition of a proposition, which is a question in much dispute at this moment. A proposition is a sign which separately, or independently, indicates its object.
