Term: Icon

Quote: Of signs there are two different degenerate forms. But though I give them this
disparaging name, they are of the greatest utility, and serve purposes that
genuine signs could not. The more degenerate of the two forms (as I look upon
it) is the icon. This is defined as a sign of which the character that fits it to
become a sign of the sort that it is, is simply inherent in it as a quality of it.[—]

An icon is a sign fit to be used as such because it possesses the
quality signified.
