'Assertion' (pub. 22.08.17-16:11). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from http://www.commens.org/dictionary/entry/quote-rationale-reasoning-3.

**Term:** Assertion

Quote: A Proposition is nearly the same as an "Assertion." The distinction which I use

the two words to mark is that an Assertion includes no more than it is the intention of the Utterer to declare, while the Proposition includes all that he

does declare, which is inevitably considerably more than he intends.
