

'Area of Cut' (pub. 18.03.18-16:53). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from <http://www.commens.org/dictionary/entry/quote-syllabus-certain-topics-logic-31>.

---

**Term:** Area of Cut

**Quote:** A cut is not a graph-replica. A cut drawn upon the sheet of assertion severs the surface it encloses, called the *area* of the cut, from the sheet of assertion; so that the area of a cut is no part of the sheet of assertion.
