'Area of Cut' (pub. 18.03.18-16:53). Quote in M. Bergman & S. Paavola (Eds.), *The Commens Dictionary: Peirce's Terms in His Own Words. New Edition*. Retrieved from http://www.commens.org/dictionary/entry/quote-syllabus-certain-topics-logic-31.

Term: Area of Cut

Quote: A cut is not a graph-replica. A cut drawn upon the sheet of assertion severs the

surface it encloses, called the area of the cut, from the sheet of assertion; so

that the area of a cut is no part of the sheet of assertion.
