

Subindex

1903 | Syllabus: Syllabus of a course of Lectures at the Lowell Institute beginning 1903, Nov. 23. On Some Topics of Logic | EP 2:274

Subindices or *hyposemes* are signs which are rendered such principally by an actual connection with their objects. Thus a proper name, [a] personal demonstrative, or relative pronoun or the letter attached to a diagram, denotes what it does owing to a real connection with its object but none of these is an Index, since it is not an individual.
