**Category:** Publication

**Title:** Cognitio: Revista de Filosofia v. 18 n.1, 2017

**Description:** Published by the Center for Studies in Pragmatism, under the Program of Post-Graduate Studies in Philosophy of the Pontifical Catholic University of São Paulo (PUC-SP), Cognitio is a philosophy journal centered on themes primarily akin to classical Pragmatism. Cognitio proposes to publish articles, essays and papers by Brazilian and foreign researchers, thus providing a space for fertile dialogue and discussion of ideas between national and international philosophical communities. It is therefore open to a wide range of contributions and approaches, which in some way touch on the theoretical universe of Pragmatism as it relates to the theory of knowledge, semiotics, logic, the philosophy of language, ethics, and metaphysics. Still in the realm of this project, Cognitio also intends to publish interviews, reviews, translations, and news, among other contributions. And, further, to establish a link with foreign journals, through an interchange system.
