Title: Cognito: Revista de Filosofia vol. 21 n. 2 published

Description: Published by the Center for Studies in Pragmatism, under the Program of PostGraduate Studies in Philosophy of the Pontifical Catholic University of São Paulo (PUC-SP), Cognito is a philosophy journal centered on themes primarily akin to classical Pragmatism. Cognito proposes to publish articles, essays and papers by Brazilian and foreign researchers, thus providing a space for fertile dialogue and discussion of ideas between national and international philosophical communities. It is therefore open to a wide range of contributions and approaches, which in some way touch on the theoretical universe of Pragmatism as it relates to the theory of knowledge, semiotics, logic, the philosophy of language, ethics, and metaphysics. Still in the realm of this project, Cognito also intends to publish interviews, reviews, translations, and news, among other contributions.
